

OPTIMIZE IT GOVERNANCE

Control. Compliance. Alignment. Mercury's IT Governance Center puts you in charge to manage the priorities, processes, and people required to run IT like a business. It gives you visibility and control over your entire IT portfolio, from strategic projects to operational activities. It helps you automate compliance with external regulations like Sarbanes-Oxley and Basel II as well as internal initiatives such as Six-Sigma, CMMi, ITIL, ISO-9000, and CobiT. Ultimately, it allows you to ensure your enterprise IT processes and investments are optimized and aligned with business goals.

Find out what Gartner and AMR have to say about Mercury's IT Governance Center, and how we can help drive your Business Technology Optimization strategy. Visit our IT Governance portal at www.mercury.com/optimizeITG.
